

How Many DekCradles Do I Need For My Deck?

We recommend 7-10 cradles** per m² for your deck. This is subject to shape of floor area and layout of the cradles.

Square shaped area may use: Approximately **7 cradles** per m².

Other deck shapes with the same square metres but more edges, may use: Approximately **10-12 cradles** per m².

* Edging requires support to a minimum of 100 mm.

**We are conservative in our recommendation figures. Cradles required varies from 7-8 cradles per m² in large open areas, and up to 10 cradles per m² where situations call for more.

Based on this information, table below has been calculated based on 10 cradles per m². (Subject to shape of deck)

| DekCradles Per Square Metre | | | | | | | | | | |
|---------------------------------|-----|-----|-----|-----|-----|-----|-----|-----|-----|------|
| Square Metre Job | | | | | | | | | | |
| | 10 | 20 | 30 | 40 | 50 | 60 | 70 | 80 | 90 | 10 |
| Number of Cradles (Recommended) | | | | | | | | | | 1000 |
| | | | | | | | | | 900 | |
| | | | | | | | | 800 | | |
| | | | | | | | 700 | | | |
| | | | | | | 600 | | | | |
| | | | | | 500 | | | | | |
| | | | | 400 | | | | | | |
| | | | 300 | | | | | | | |
| | | 200 | | | | | | | | |
| | 100 | | | | | | | | | |

DekCradles are available at selected building merchants nationwide. Phone our office to find your nearest supplier. (Cradles are supplied in strips of 13 per strip.) Subject to Volume.
